UNIVERSITY OF MISSOURI Extension Master Gardeners

HELPING OTHERS LEARN TO GROW

Helping others learn to grow is mission of the Missouri Master Gardener Extension Program. The Master Gardener program provides in depth horticultural training to individuals throughout Missouri who then volunteer their time applying what they have learned to help others in their communities to learn about gardening and environmental education. The Master Gardener Program throughout Missouri promotes and raises public awareness of the University of Missouri Extension as a source of unbiased, research based gardening information.

Through activities such as Extension hotlines or answer services, workshops, speaker's bureaus, garden tours, classes, seminars, garden show booths, community projects, demonstration projects, and special events, Master Gardeners provide gardening information to thousands of Missourians each year.

GARDEN SEMINAR SERIES

MOGARDENS

MARCH 21 - MAY 2, 2011

Master Gardeners of Greene County

The MOGARDENS Seminar Series is designed to provide you with a comprehensive overview of several garden subject areas.

During seven sessions you will receive instruction in 14 specific gardening topics. This is always a popular series because of the diversity of subjects covered and the excellent teachers who conduct the programs. We invite you to take advantage of this educational opportunity. Registration for single dates are also available.
